

Client Name: Ethan & Heidi

Location: South of Eureka Springs, AR, near Beaver Lake

LV Home Type: LVL

Size: 1,450 sq. ft.

Years lived in: Less than a year

Our Style: The form and function of Eames with a wabi sabi soul--simple modern design with natural and elemental accents

The Inspiration: The Aspen Institute's serene, mid-century retreat, Reykjavik style and superhero hideouts

Favorite Element: IPE wood deck and entry bridge

Biggest Challenge: We're pretty remote so finding contractors for various specialty work has been a challenge

What Friends and Family Say: Rave reviews so far

Proudest Do-It-Yourself Project: Planning and sourcing materials that are non-toxic and environmentally friendly

Biggest Indulgence: Stainless steel cabinets in kitchen

Best Advice: Select your site to take maximum advantage of passive solar gain (orient windows to south and east)—the energy efficiency alone is worth it, but the right orientation also gives you amazing light and shadows throughout the day

Our Dream Source: Formaldehyde-free bamboo flooring and cork flooring from www.greenbuildingsupply.com

Resources (flooring, windows, appliance, furniture, etc): Coming soon...
